Experience

One North Interactive, Chicago, IL

March 2015 - Present

Developer

- Supported and coded features for several CMS platforms including Sitecore and Keystone
- Worked on a proprietary CMS system developed in-house
- Communicated with account managers who were liaisons for our clients

CDK Global, Hoffman Estates, IL

January 2014 – March 2015

Software Engineer

- Built features and fixed bugs for a production app written in HTML, CSS, and JavaScript (+AngularJS)
- Helped transition a partner's product into our own software development stack
- Attended job fairs and gave speeches aimed at acquiring new technical talent

Learning Sciences Research Institute, Chicago, IL

May 2012 – January 2014

I.T. Support Specialist

- Managed Windows Server 2003, 2008, 2012, and Ubuntu servers
- Maintained users and computers using Active Directory and Group Policy
- Fixed myriad ASP.NET bugs in our web applications and departmental websites
- Brought help desk ticket queue down from ~2000 to <10 by increasing efficiencies in ticket resolution

CDK Global, Hoffman Estates, IL

May 2013 – August 2013

Software Development Intern

- Developed user research aggregation tool using SQLServer, .NET Web APIs, and AngularJS
- Leveraged R&D's current tech stack and our own ideas to lay the foundation for our project

Heartbase, Inc, Chicago, IL

May 2012 – August 2012

Programmer

- Wrote a user license validity checker and update tool in PQL
- Developed a C++ program that hashed encrypted files for integrity checking
- Implemented git source control on a virtual server that better facilitated team development

University of Illinois at Chicago Police Dept, Chicago, IL

March 2010 – May 2012

I.T. Aide

- Updated UIC Crime Map using GoogleMaps API
- Wrote scripts that simplified I.T. supervisor's job
